

# Take a *SLICE* out of labor costs

## One-person installation for the XLCS, XLCM & PLCS fixtures with Universal Mounting Plate!

### INTRODUCING...

## LSI's New Pole Quick Mounting Bracket for the LED Slice Medium and Small!

Mounting bracket can be used for retrofitting or new build, and can work with any drilled square pole. Brackets are compatible with LSI's and most competitor's drilling patterns! Vibration tested to 1.5G.

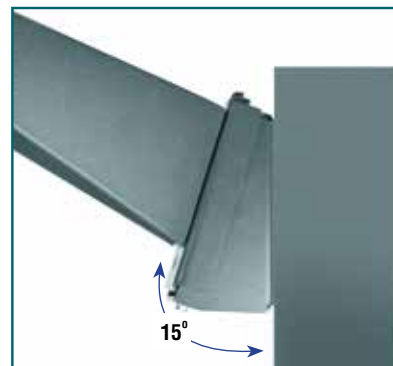

Available with horizontal mounting or fixed 15° angle.

Universal Mounting Plate

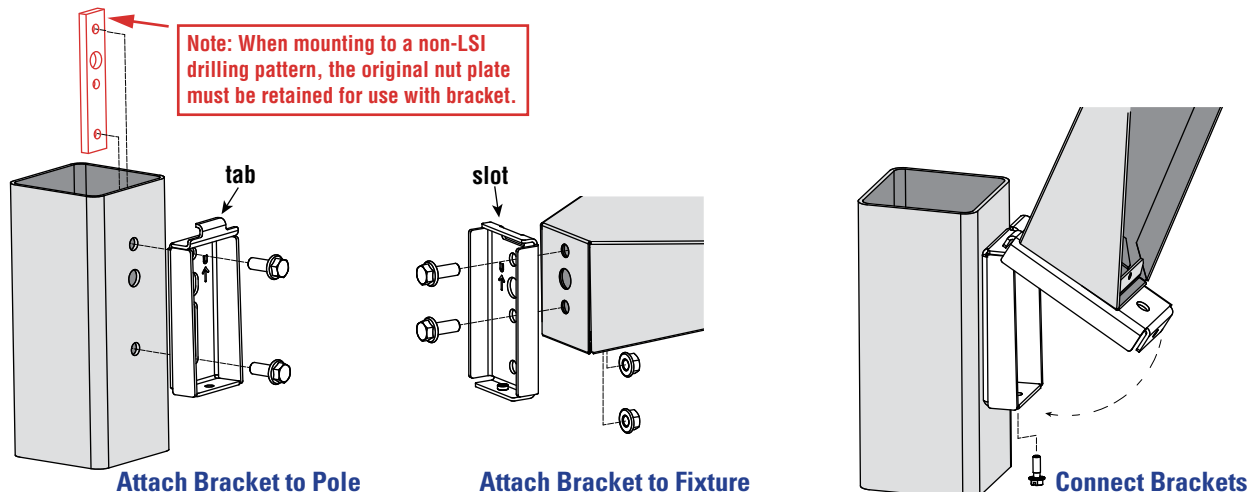

Horizontal - PQMH

15° Angle – PQM15  
Allows 15° uptilt of fixture for greater throw of light with increased vertical illumination

## Easy One-person Installation *SLICES* Labor Costs

All hardware included in kit
